

# Amazon fabric

The Amazon fabric is designed for areas where privacy or solar shading is needed. This fabric is 100% polyester and boasts a flame retardant composition to ensure that this fabric is suitable for many applications both commercial and domestic. The dim-out properties of this fabric allow a certain amount of light to penetrate whilst at the same time taking away the glare. Amazon fabric is available in 13 colours and in three widths – 2000mm, 127mm and 89mm. This comprehensive range has the capacity to challenge many larger collections.

- Fabric Composition:** 100% Polyester
- Fabric Range:** 13
- Louvre Widths:** 127mm (5")  
89mm (3.5")
- Roller Fabric Width:** 2000mm (78.7")
- Fabric Thickness:** 0.50mm - nominal
- Fabric Weight:** 240 g/m<sup>2</sup> - (+/-10)
- Fire Retardancy:** Conforms to BS5867, Part 2: Type B 2008
- Shading:** Dim-out.  
Recommended for computer environments
- Moisture Resistance:** Suitable for moist conditions
- Care Instructions:** Wipe with damp sponge; Do not tumble dry; Do not dry clean; Do not iron

# Amazon fabric

## shading efficiency

**Transmittance** is the amount of light and heat transmitted beyond the fabric. The lower the amount, the greater the efficiency.

**Block/reflect** is the amount of heat and light that is blocked or reflected. The higher the amount, the greater the efficiency.

**Absorption** is the amount of heat and light absorbed in the fabric. The higher the amount, the lower the efficiency.

**Ultraviolet** protection illustrates how protective the fabric is against ultraviolet rays. The higher the amount, the greater the effectiveness.

	2000 mm	127 mm	89 mm	Heat Transmittance %	Light Transmittance %	Sun Block %	Ultraviolet Protection %	Shading Co-efficiency %	Heat Reflection %
White				18	16	84	100	25	74
Cream				18	19	81	100	29	70
Magnolia				19	19	80	100	28	71
